BORE LARGE DEEP HOLES FAST...

For plumbing, rough-in work, and many other uses. Features an inside cutter that pushes the wood chips to the rear of the bit, allowing you to bore faster, deeper holes in wood, without clogging or binding.

Double-end screw point with a medium pitch screw on one end and a fine pitch screw on the other gives the operator a choice of feed speeds, depending on the work material involved.

2 recesses provided on one flat of the shank gives positive grip when used with extensions, reducing the possibility of losing the bits in hollow walls or floors.

ALL MULTISPUR & FORSTNER BITS SOLD INDIVIDUALLY

Packaged Individually With Extra Double End Screws & Wrench.
